

JOHN SMITH

UI Specialist and Frontend Guru

London, UK | +44 7700 900077 | john.smith@webdev.co | github.com/johnsmith | linkedin.com/in/johnsmith

SUMMARY

Frontend engineer with 5+ years of experience crafting fast, accessible, and pixel-perfect user interfaces. Deep expertise in React and TypeScript, with a strong eye for design systems, performance, and cross-browser consistency. Passionate about translating complex product requirements into clean, maintainable component architecture.

SKILLS

Core: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

Styling: Sass, Tailwind CSS, Styled Components, CSS Modules

Tooling: Vite, Webpack, Jest, React Testing Library, Storybook, Figma

Practices: Responsive Design, Accessibility (WCAG), Design Systems, Performance Optimization, CI/CD

EXPERIENCE

Senior Frontend Developer — PixelForge Digital

Jan 2023 – Present

- Led the migration of a legacy jQuery front end to a component-based React and TypeScript architecture, cutting page load time by 40%.
- Built and maintained a shared design system used across 6 product teams, improving UI consistency and cutting new-feature build time by 30%.
- Improved Lighthouse accessibility scores from 68 to 96 across core product pages by auditing and remediating WCAG issues.
- Mentored 3 junior developers on React best practices, code review standards, and component testing.

Frontend Developer — Northgate Software

Sep 2020 – Dec 2022

- Developed responsive, cross-browser UI features in React for a B2B SaaS dashboard used by 50,000+ users.
- Introduced TypeScript into the codebase, reducing runtime type errors and improving developer velocity.
- Collaborated with designers to build a reusable component library in Storybook, adopted as the team standard.

Junior Web Developer — Clearwater Studio

Jul 2019 – Aug 2020

- Built marketing and landing pages in HTML5, CSS3, and vanilla JavaScript for a range of client websites.
- Optimized site performance and SEO, improving average page speed scores by 25%.
